**AS A PARTICIPANT IN
THE SUMMER
SOPHOMORE
EXPERIENCE PROGRAM,
YOU WILL HAVE THE
UNIQUE OPPORTUNITY
TO:**

**APPLY FOR THE UNIVERSITY OF MISSOURI—ST. LOUIS MOLSAAMP
SUMMER SOPHOMORE EXPERIENCE**

The MoLSAMP Summer Sophomore Experience is a week-long residential program that includes programming and activities designed especially to help students from historically underrepresented backgrounds (Black or African American; American Indian or Alaska Native; Hawaiian/ Pacific Islanders; Hispanic) in STEM majors throughout their second year of their college experience at MoLSAMP alliance member institutions. These institutions include Harris- Stowe State University, Lincoln University, Truman State University, the University of Central Missouri, the University of Missouri at Columbia, the University of Missouri—St. Louis, Washington University, and the St. Louis Community College System. For the purpose of this program only students who are rising sophomores (completing the freshman/first year) in STEM-related majors at universities within the MoLSAMP alliance are eligible for admission—regardless of how many hours that have been completed in the first year of enrollment. Participants who successfully complete the MoLSAMP Summer Sophomore Experience will receive a stipend of \$500 for participation in the program and travel expenses up to \$250.

For more information, contact MOLSAMP@umsl.edu or visit <https://coe.umsl.edu/w2/initiatives/molsamp.html>
